

# DUST/DECON FILTER COVERS

The Avon Protection rubberized Dust/Decon Filter Covers provide simple to fit showerproof protection, making it ideal for use in a decontamination scenario.

When fitted over a compatible APR/PAPR filter, the Dust/Decon Filter Covers allow the filter to continue to function whilst helping protect the filter inlet port from chemical wash down during wet or dry decontamination procedures.

The cover allows the inlet port of the filter to be orientated against the ingress of wet chemistry.

In addition, the Dust/Decon Filter Covers help to reduce excess particulate build up for users operating in enclosed space/ areas of higher dust particulate hazard.

## WEIGHT AND DIMENSIONS

<b>Internal Diameter:</b>	111mm (4.37in)
<b>External (Max) Dimensions:</b>	124mm x 115mm (4.88in x 4.53in)
<b>Thickness:</b>	2mm (0.08in)
<b>Depth:</b>	48mm (1.89in)
<b>Weight (per cover):</b>	72g (2.54oz)
<b>Color:</b>	Black

## FILTER COMPATIBILITY

CBRNCF50	CBRNCF50e
CTCF50	CTCF50e
MILCF50	GPCF50
CFP100	

Part Number	Description
70501/270	Black (sold as a pair)
